Explore the famous Ouzoud waterfalls on a privat day trip from Marrakech. These waterfalls, about 110 m high, are located 150 km northeast of Marrakech towards Beni Mellal in a green, rural valley.

The region is planted with olive, fig, and almond trees, and also known by the large number of macaque monkeys who come to greet tourists and try to take what they have in their hands, it's funny but beware.

Ouzoud is an ideal place for nature lovers, the greenery and the calm is only 2H30 from Marrakech.

For a day trip the departure is at 8:00 am with a single stop for coffee break.

Once you arrive, you have the choice of taking a local guide for a ride and visiting, or even share it yourself if you are sure not to get lost. You can also take a ride on the small boats that will take you to the waterfall and all around the river.

After lunch, stroll around the region and discover the famous Macaques (desert monkeys). Afterwards, enjoy a good mint tea during a short break to relax and then you will take the path to return to your accommodation in Marrakech.
